MR. JONES ON THE SILVER QUESTION.

Mr. Jones spoke at some length as to the power granted Congress by the Constitution to coin money, regulate it and so on, and argued that at the time the acts of 1869, to strengthen the public credit, and of 1870, to authorize the refunding of the public debt, were passed the silver dollar was a legal tender of the country and Congress had no power to exclude it from the coinage of the country. If any coin should have been abolished on account of being unstable in value it should have been gold. He spoke of the advantages of silver money, and said there was a large channel in business reasons for demanding gold alone.

WAR NOTES.

Arrest of Refugees and Their Sufferings.

LONDON, January 21.—The Daily Telegraph prints the following, under date of Constantinople, yesterday:

Mr. Master, Agent of the English Relief Fund, has just arrived here with a train full of refugees from Adrianople. These unhappy people have been in open cattle trucks for three days. Many perished from cold last night, fifteen being found dead in the trucks. Suffering of every description is awful. Mothers are reported in their frenzy to have thrown away living babies rather than see them die in their arms. As the train moved from Adrianople numbers of the people tried to cling to the outside and the frame work of carriages, sand many attempted to ride on the bumpers. At one station, where hundreds of people had congregated without food for two days, the men threatened Mr. Master with violence if bread was not given to them. Yesterday there were 15,000 women and children out in the snow at Charlow. Three trains full are hourly expected to arrive at Constantinople. It is not known where they will find shelter. The snow is seen inches deep and is still falling. The weather is intensely cold. All that can possibly be done is being effected by the administrators of the relief fund, but many lives are being sacrificed.

SULIMAN PASHA.

If the report that Suleiman Pasha has reached the Drama should prove true he can take his army (believed to be not less than 5,000 men) to the sea by a short march and thence secure transportation to Gallipoli or Constantinople. His exape through the Rhodople mountains does not appear in itself to be improbable; and it now seems that the force which the Russians were able to place across his path west of Adrianople consisted entirely of cavalry, who could destroy his communications and cut off his supplies, but could not seriously impede his march eastward or southward. However the news of Suleiman's actey is unconfirmed.

Washington, January 21.—Colonel Wagner writes to the Commissioner of Internal Revenue from Greenville, S. In a recent raid made by his officers, under a collector, in which they captured an eighty gallon still and arrested the owners, they were assailed by nine moonshiners with shot guns and rifles. They responded with their breechloaders and charged up a hill upon their assailants and drove them back, chasing them till they were dispersed.

Heavy Run on Savings Banks.

San Francisco, January 21.—On Saturday there was something approaching a run on the Odd Fellows' Savings Bank, which, however, aitracted little attention. This morning the run recommenced at the opening of the bank, and has continued during the day. As a precautionary measure the bank, in conformity with its by-laws, required a notice to be given on all amounts of \$100 and over at the rate of two days for each \$100. The officers assert confidently that the bank can pay all demands under the provisions of the by-laws. The run extended to the Clay Street Savings Bank, which also has been besiged by depositors all day. The President states that there was no ground whatever for the run, and that the bank is ready tof fulfill all obligations. No other savings banks have experienced an unusual demand on their resources. There is a disposition to partly, at least, credit the runs to the present incendiary agitation.

In conformity with the notice given by the railroad authorities that the unemployed workingmen would be given work at the company's property on Mission Bay at one dollar per day, several hundred men assembled there early this morning. Regarding the failure to-day, Mr.
